### RITA FELTS

*"Collecting, creating, and decorating with shells has gone on for thousands of years. As a shell artist, my pieces are oceanic, bright and colorful. For this project, I tried to portray the colors of my Florida Keys home island, and the beautiful world below the ocean's surface."*

*"Seabiscuit" was inspired by the ocean itself: One day it's tranquil and sparkling; next it's angry and powerful. But, after it calms, gifts are given from her depths: An abundance of seashells."*

Rita's work is featured at the Silver Heron Gallery, Depoe Bay, Oregon.
